

HVAC Maintenance Services

Our Standard HVAC Maintenance services include:

- Checking and programming thermostats.
- Replacing all air filters each visit (standard filters included).
- Blowing out and cleaning condensate traps and lines.
- Inspecting all condenser coils, refrigerant pressures, and controls.
- Inspecting and testing all high/low limits.
- Cleaning and inspecting heat exchangers, diverters, and condensate pumps.

Our Heavy Preventative HVAC Maintenance services include all of the Standard Maintenance services, as well as the following:

- Inspecting all contactors, relays, and circuit boards.
- Lubricating and inspecting all motors.
- Checking amp draw on all motors.
- Inspecting and replacing coils as needed.
