

Building Interior and Exterior Maintenance Services

Our Building Interior and Exterior Maintenance services include:

- Examining the condition of floors, ceilings, storage racking walls, etc., for evidence of deterioration.
- Checking for visible signs of leaks.
- Inspecting for hazards (electrical, mechanical, structural, physical, tripping, etc.).
- Testing smoke and carbon monoxide detectors.
- Testing the fire alarm system.
- Examining the firefighting equipment.
- Checking all doors for proper operation; ensuring that exits are not obstructed.
- Inspecting the condition of door locks and closures.
- Inspecting for evidence of insect infestation.
- Examining the condition of walls, paint, siding, EIFS, ACM panels, etc.
- Checking for broken windows and doors.
- Examining the condition of all railings and bollards.
- Checking for plants growing on the building or its foundation.
- Inspecting signage and its operation, timing, cleanliness, etc.
- Examining the condition of sidewalks.
- Reviewing the condition of driveway and parking area.
- Examining the condition of trees; verifying that no branches or obstructions are about to fall.
